REMY VIRGIN BULK HAIR

Virgin Remy Bulk Hair is premium, unprocessed human hair collected from a single donor, ensuring all cuticles are intact and aligned in the same direction. This results in hair that is naturally soft, tangle-free, and long-lasting. Ideal for custom wigs, extensions, and other styling needs, Virgin Remy Bulk Hair offers unmatched quality and versatility for a flawless, natural look.

HUMAN HAIR CLOSURES

Closures human hair refers to a hairpiece designed to close off an install or wig, giving a natural-looking scalp. Made from 100% human hair, closures are typically installed at the crown of the head and come in different sizes like 4x4 or 5x5 inches. They blend seamlessly with natural hair or extensions, allowing for versatile styling without leaving any natural hair exposed. Closures are perfect for protective styling, preventing damage from heat or environmental factors while providing a polished, undetectable finish to hair installations.

HUMAN HAIR COLOUR STRIPS

Human hair color strips are small sections or strands of 100% natural human hair that are pre-dyed in various vibrant or natural shades. These strips are used to add highlights, lowlights, or pops of color to hair without fully dyeing the entire head. They offer a temporary or semi-permanent way to experiment with different hair colors, allowing for easy application and removal. Human hair color strips blend seamlessly with natural hair, providing a versatile and stylish option for those looking to change up their look without long-term commitment.

HUMAN HAIR FRONTALS

Human hair frontals are hairpieces made from 100% natural human hair, designed to cover the front part of the hairline from ear to ear. Typically sized around 13x4 or 13x6 inches, frontals provide a seamless, natural-looking hairline and allow for versatile styling, including middle, side, or no parting at all. Unlike closures, frontals cover the entire front of the head, giving the wearer the option to pull their hair back into ponytails or other styles without revealing their natural hair. They are popular for creating full, flawless wigs or weaves while protecting the natural hair underneath.

NON-REMY VIRGIN BULK HAIR

Non-Remy virgin bulk hair refers to natural human hair that has not undergone chemical processing (virgin) but differs from Remy hair in how it's collected. Unlike Remy hair, where cuticles remain aligned in the same direction, non-Remy hair is gathered from various sources and may have cuticles facing different directions, which can lead to tangling if not properly treated. This type of bulk hair is often sold in its loose form, making it ideal for creating wigs, extensions, or braiding. Despite the cuticle misalignment, non-Remy virgin hair is still a cost-effective option for natural hair solutions.

HUMAN HAIR WEFT

Human hair wefts are bundles of 100% natural human hair that are sewn or machine-stitched at the top to create a track. These wefts can be used to add length, volume, or thickness to natural hair through methods like sewing, gluing, or clipping. Available in different textures, lengths, and colors, human hair wefts blend seamlessly with natural hair for a fuller, natural look. Since they are made from real human hair, they can be styled with heat tools, dyed, and treated like natural hair, offering versatility and a natural finish for extensions or wigs.

HUMAN HAIR CLIP - IN EXTENSIONS

Human hair clip-in extensions are temporary hair extensions made from 100% natural human hair, designed to be easily attached and removed using small clips. These extensions come in sections, allowing for quick and customizable application to add length, volume, or color without commitment. Clip-ins blend seamlessly with natural hair and can be styled, curled, or dyed just like your own hair. They are perfect for those looking to enhance their hairstyle for special occasions or everyday wear, offering a convenient, non-permanent way to achieve a fuller, longer look.

- **Length - 10" inches to 36" inches (40" inches is also available)**

HUMAN HAIR I-TIP EXTENSIONS

Human hair I-tip extensions are individual strands of 100% natural human hair with a keratin tip shaped like an "I." These extensions are applied using a method that involves small beads or micro rings, allowing the hair to be attached strand by strand without heat or glue. I-tip extensions provide a flexible, long-lasting option for adding length and volume while allowing for natural movement and styling versatility. They are ideal for people who want a more discreet and durable extension method that blends seamlessly with their natural hair for a fuller, more polished look.

HUMAN HAIR U - TIP EXTENSIONS

Human hair U-tip extensions are individual strands of 100% natural human hair with a keratin tip shaped like a "U." These extensions are applied using a heat fusion method, where the U-shaped keratin tip is melted and bonded to small sections of natural hair. U-tip extensions provide a secure and long-lasting solution for adding volume and length. Since the keratin bond mimics the natural structure of hair, the extensions blend seamlessly and can be styled, curled, or dyed just like your own hair. They are perfect for those seeking a durable, natural-looking extension option.

- **Colour - as per requirements (30+ options)**
- **Length - 10" inches to 36" inches (40" inches is also available)**

HUMAN HAIR V - TIP EXTENSIONS

Human hair V-tip extensions are strands of 100% natural human hair featuring a keratin tip shaped like a "V." This unique design allows for a more secure bond when applied to natural hair. V-tip extensions are typically installed using a heat fusion method, where the keratin tips are melted and fused to small sections of natural hair. They provide a long-lasting and durable solution for adding length and volume while allowing for natural movement and styling flexibility. With their discreet application, V-tip extensions seamlessly blend with your natural hair, making them an excellent choice for a polished, fuller look.

HUMAN HAIR TAPE - IN EXTENSIONS

Human hair clip-in extensions are temporary hair enhancements made from 100% natural human hair, designed for easy application and removal. Each extension comes with built-in clips that securely attach to your natural hair, allowing you to add length, volume, or highlights in minutes. These extensions are versatile and can be styled, curled, or colored just like your own hair, making them ideal for special occasions or everyday wear. With a variety of textures and colors available, clip-in extensions offer a convenient way to achieve a fuller, more glamorous hairstyle without the commitment of permanent extensions.

HUMAN HAIR PONYTAIL EXTENSIONS

Human hair ponytail extensions are ready-to-wear hairpieces made from 100% natural human hair, designed to instantly enhance your hairstyle. These extensions come in various lengths, textures, and colors, allowing you to achieve a fuller and longer ponytail effortlessly. They typically feature a wrap-around design or a clip-in mechanism for easy application and secure attachment. Human hair ponytail extensions can be styled, curled, or straightened to match your look, making them a versatile accessory for both casual and formal occasions. They provide a quick and stylish way to elevate your hair game without the commitment of permanent extensions.

- **Length - 10" inches to 36" inches (40" inches is also available)**

HUMAN HAIR NANO - TIP EXTENSIONS

Human hair nano tip extensions are innovative hair extensions featuring ultra-fine strands of 100% natural human hair attached to tiny, lightweight beads. These extensions are applied using a specialized technique that involves securing the nano tips to natural hair with a silicone-lined bead, making them nearly undetectable and providing a seamless blend. The small size of the nano tips allows for more versatile styling and movement, minimizing discomfort and potential damage to the natural hair. Nano tip extensions are ideal for those seeking a discreet, long-lasting solution for added volume and length while maintaining a natural look.
